Hi Robin. Yes, that was a mistake in the application. It should be 10 kW day/1 kW night. Do you need me to send you an amended Page 4 of the 302-AM? Please let me know. Thanks!

- Mark

Hi Mark,

The day/night time power is incorrect in the application. Day-time power shows 1.0 and Night-time 10.0. It should be the other way around. I changed it in the CDBS and just need you to email me what the correction should be. Thanks!
